

Production Access Questionnaire

Testers Community

The objective of this report is to provide comprehensive answers that our clients can use to fill the production access form. You can use the answers directly or can make changes based on how you improved the app. After 14 days of testing, users will be prompted to fill a form on closed testing to get access to production. This document can be helpful in answering those questions.

App Name: Seniorease Library

App URL:

<https://play.google.com/store/apps/details?id=com.maureen.biblitoheek>

Production Access Questionnaire

1) How did you recruit users for your closed test? For example, did you ask friends and family, or use a paid testing provider?

We used a paid testing provider to obtain comprehensive feedback on SeniorEase Library. Additionally, we reached out to some of our target users — avid readers and library enthusiasts — to gather valuable real-world insights from the intended audience.

2) How easy was it to recruit testers for your app?

Answer: Easy

(You can select your own answer).

3) Describe the engagement you received from testers during your closed test

Testers actively engaged with the app, providing insightful feedback on features like scanning, readability, and overall usability. Their suggestions led

to crucial enhancements, ensuring a more user-friendly experience and improving overall satisfaction with the app.

4) Provide a summary of the feedback that you received from testers. Include how you collected the feedback.

Testers highlighted the need for ASO optimization, meaningful screenshots, a dynamic walkthrough, theme toggle options, and rating/sharing features. Feedback was collected through structured surveys and direct communication channels, ensuring thorough insights.

5) Who is the intended audience for your app?

SeniorEase Library is designed for avid readers and book collectors, particularly seniors, who want to efficiently manage their book collections. It caters to users seeking an intuitive and accessible way to track their reading preferences and library items.

6) Describe how your app provides value to the users.

SeniorEase Library offers a seamless way to manage book collections with features like ISBN scanning, reading tracking, and offline accessibility. With

large text and high contrast options, it enhances readability, making book management enjoyable and efficient for users.

7) How many installs do you expect your app to have in your first year?

Answer: 10k - 100k

(You can select your own answer).

8) What changes did you make to your app based on what you learned during your closed test?

Based on user feedback, we focused on improving ASO with optimized descriptions, enhancing app screenshots to showcase features, and planning a dynamic walkthrough for new users. We're also considering theme options and adding rating/sharing functionalities.

9) How did you decide that your app is ready for production?

After completing extensive testing phases, addressing critical feedback, and implementing user-requested features, we ensured that SeniorEase Library is stable, user-friendly, and optimized for a seamless experience, making it ready for successful deployment on Google Play.

10) What did you do differently this time?

This time, we prioritized gathering diverse user feedback, focusing on accessibility, and enhancing the app's promotional aspects. By addressing usability challenges and incorporating user suggestions, we refined the app, ensuring it's polished and ready for production.

You can use the above answers or add your personal touch to those answers to make them more natural and meaningful. Don't forget that this form plays the most important role in the entire process of getting production access. If you have any more questions, please feel free to contact us.

**Best regards,
Testers Community Team**
